

# ROHDE & SCHWARZ RTO1024

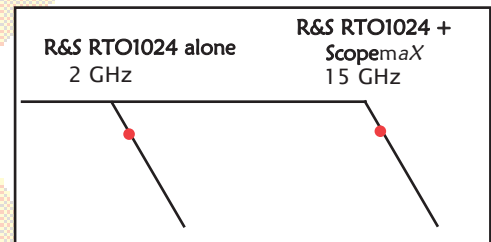

## Performance

Extend the life of the 2 GHz Rohde&Schwarz RTO1024 by expanding its performance with ScopemaX

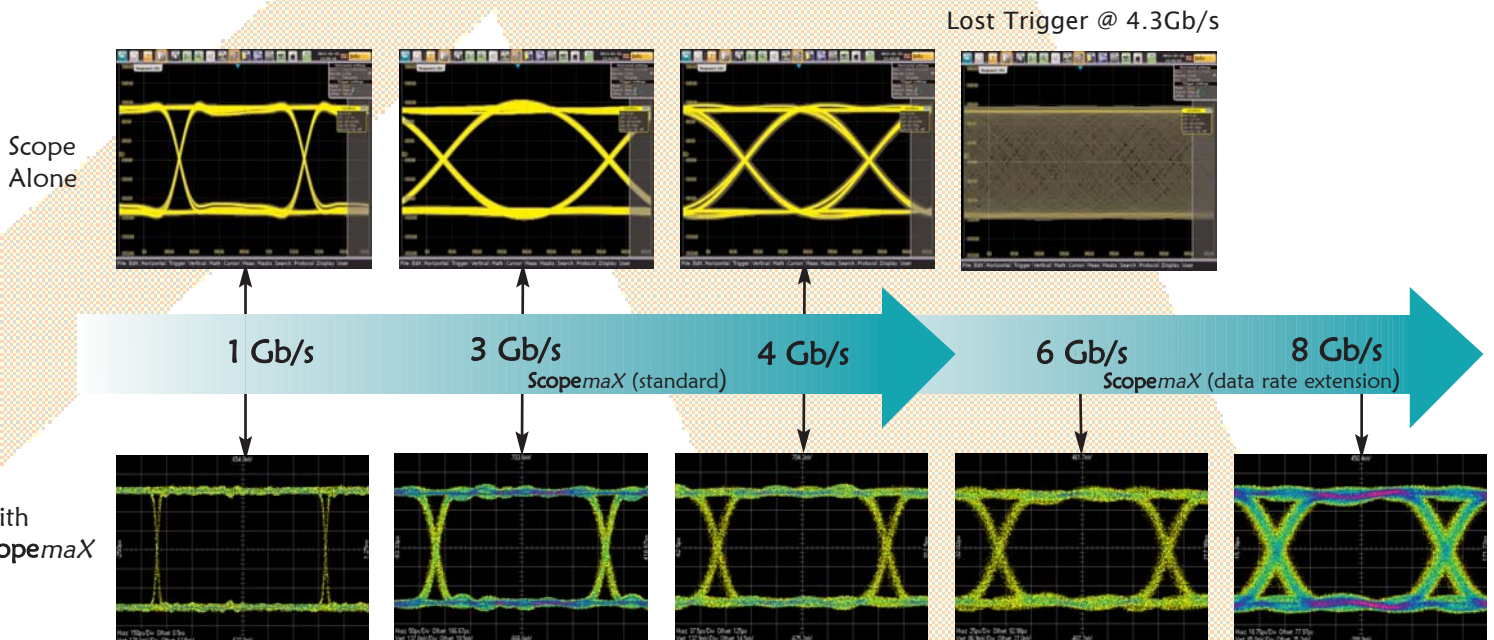

- ◆ Boost the bandwidth to 15 GHz
- ◆ Increase the data rate measurement capability to over 6 Gb/s
- ◆ Enjoy the powerful jitter and signal integrity software included with ScopemaX

### Bandwidth Improvement

### R&S RTO1024 Data Rate Performance

The examples below show before and after performance looking at a K28.5 data pattern at increasing data rates. ScopemaX more than doubles your capabilities for less than half the cost of a new higher BW real-time scope.
